STICKYBEAR® MATH 2

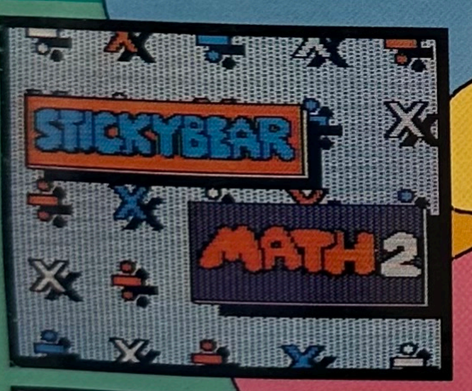
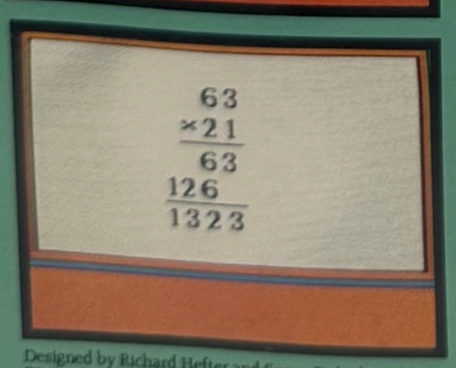
Kids have lots of fun practicing multiplication and division at their own skill levels!

35 x 7

Stickybear Math 2 does for multiplication and division what *Stickybear Math 1* did for addition and subtraction. The program helps children build skills while they are practicing. *Stickybear Math 2* can be customized and individualized for up to 40 students and keep their records.

The program has an automatic level-of-difficulty monitor that adjusts problems to student skills. This important feature enhances learning, minimizes frustration, and keeps the student challenged.





Multiplication and Division Program for ages 7 and up

Ask about other exciting games and educational programs *Weekly Reader Family Software* has for the whole family.

LIMITED WARRANTY

For a period of 90 days from the date of purchase, Optimum Resource, Inc. warrants to the original purchaser/customer that the diskette provided is free from defects in material or workmanship, under normal use and service. This warranty does not apply to defects resulting from abuse, alteration, or unreasonable use of the product. In the event that such defect is discovered within the warranty period, the purchaser's sole and exclusive remedy is expressly limited to the repair or replacement of the diskette. Simply return the diskette to Weekly Reader Family Software along with a dated receipt.

This warranty is in lieu of all other warranties — oral, written, expressed, implied. Any implied warranties, including warranties of merchantability and fitness, are hereby limited to 90 days from the date of purchase. Incidental and/or consequential damages resulting from a breach of any applicable express or implied warranties are hereby excluded, including damage to property and damages for personal injury. Some states do not allow the exclusion or limitations on how long an implied warranty lasts, so the above limitation or exclusion may not apply to you.

This warranty shall not be applicable to the extent that any provision of this warranty is prohibited by any federal, state or local law which cannot be preempted. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

the Session

has finished playing Stickybear Math 2, the session and the results saved to the disk by pressing the Control pressing the Z key (CTRL Z). Note: Control Z can be used when a new problem is on the screen, before it has been answered.

Control Q (CTRL Q) Quiet

Press the Control key while pressing the Q key (CTRL Q) to turn off the sound for quiet play. Apple IIc users can simply turn down the adjustment knob located on the left side of the machine. You can use this option any time there is a problem on the screen.

Teacher/Parent Option

Press Control C (CTRL C) while the welcome panel was on screen, to enter the Teacher/Parent Option section. This section allows you to determine the type and level of problem presented to each student. You can make individual assignments, then store them on the disk for up to 39 students (the 40th name is always reserved for any new student not on the list). When the class, family, or neighborhood plays Stickybear Math 2, each student will be presented with the type and level of problem you chose for that individual.

You will see:

```
YOU CAN CUSTOMIZE
THE STICKYBEAR
MATH 2
PROGRAM FOR EACH
STUDENT.

PRESS RETURN TO GO
ON OR ESC TO GO
BACK TO THE START
OF THE PROGRAM.
```

Press RETURN to continue. You will see:

```
ENTER THE
STUDENT'S NAME:

■
-----------

PRESS RETURN TO
GO ON
```

Type the student's name (11 or fewer letters), then press RETURN. The Teacher/Parent Option section will present you with six choices to make. Press the appropriate number or answer yes (Y) or no (N) to identify your response, then press RETURN. You will be able to review and revise your selections after the sixth choice.

The options are these:

1. **SELECT THE NUMBER OF TRIES.** Enter a number from 1 to 4 to specify how many incorrect answers the program will accept before the computer displays the correct answer and registers a missed answer on the progress report. The program default for this choice is 2. Younger children will feel comfortable with more tries. Set the option to 1 try for more accomplished math wizards or for a quiz with accurate per-problem scoring.

2. **SELECT THE LEVEL OF DIFFICULTY.** Enter a number from 1 to 36 to select the level of difficulty at which the program will begin for this student. Remember, Stickybear Math 2 will adjust itself up or down as the student solves the problems. See the Table of Levels for a description of the problems presented at each level and the skills involved.
